Indonesian Green Tea

Your perfect answer for healthy green tea!

If you are looking for quality green tea with a multitude of benefits, our Indonesian tea is the answer. A study conducted by the Indonesian Institute of Sciences (LIPI) in 2018 proved that Indonesian tea has higher antioxidants than other teas.

This is also supported by a statement by The International Society of Antioxidants in Nutrition and Health which states that tea from Indonesia is more effective in warding off free radicals because of its higher antioxidant content.

Our Story Company

PT. Artasik Mandiri Berkah is a green tea supplier from Indonesia that has been established for decades in the Taraju tourist spot, Tasikmalaya, West Java - Indonesia. We produce quality green tea that is well-recognized in the local market.

We provide tea bags and brewed tea that are processed well and professionally without any mixtures so that our green tea is guaranteed to be pure and has many health benefits.

Green Tea is Our Healthy Drink Choice

Green tea is made from *Camellia sinensis* leaves and buds without the same withering and oxidation process used to make oolong and black teas.

It originated in China but has become popular worldwide, including Indonesia, due to its numerous health benefits and unique taste. Green tea is known for its rich content of catechins, a type of antioxidant.

These antioxidants have been linked to potential health benefits, including improved brain function, fat loss, a lower risk of cancer, and improved heart health

Why us?

- 01 100% Organic
- 02 100% original without any other mixture
- 03 Export quality at affordable prices
- 04 Processed with due regard to environmental sustainability therefore it does not pose a threat to anything.
- 05 Clean and protected from any hazardous materials
- 06 Many product choices
- 07 Packed in safe packaging so it won't damage the products

Benefits of Green Tea

- 01 Prevent heart disease
- 02 Lose weight
- 03 Reduces the risk of getting cancer
- 04 lower cholesterol levels
- 05 optimize the body's metabolism
